

## Personal Viewing Screens

**SHARP®**

**A**t CardioVision, we offer products that will keep them coming back for more. Nobody projects the future of personal viewing screens more clearly than CardioVision. Our 19" screen, is an enhanced LCD panel that brings you all of the picture qualities you have come to expect from SHARP®, the leader in LCD TVs. SHARP's proprietary black TFT panel, is bright enough to be positioned near windows or in high-glare locations, utilizing its Advanced-Edge-Light system a backlight technology that increases contrast and image clarity. CardioVision boasts consistently accurate color — which results in deeper blues, more vibrant reds, and absolutely precise flesh tones.

Each unit features 50,000 hours of lamp life, V-Chip (parental control) component video, composite video, S-video and RF-Antenna inputs, and a built-in 181 channel, digital tuner that eliminates the need for extra hardware or bulky external components. Ask about our optional CD/DVD/MP3 features that will satisfy your members' every need.
